Mr. Brendin Boyle  
Michigan Department of Public Health  
Health Risk Assessment Division  
P.O. Box 30195  
Lansing, MI 48909

Dear Mr. Boyle:

As we discussed on May 13, enclosed please find for your review the sampling data from the two residential wells in connection with the Albion-Sheridan Township Landfill site in Albion, Michigan.

Although this is not our usual practice, after speaking with Mary Beth Novy we agree that your department can write-up draft letters for the residents as you have suggested. We request that the letter specify that the U.S. EPA collected and analyzed the samples as part of the project for the site.

Since Mary Beth will be away for a month, please direct your review and a copy of the draft letter to my attention and contact me at (312)886-7251 if you have any questions.

Sincerely,

Rosita Clarke
